

## Berries

Red berries are always around  
scattered everywhere,  
there in the winter and the summer.  
In summer their glittery red,  
rose red,  
reflects in trees and leaves.  
In winter there are black ones  
hanging on to fingertips of bushes.  
Winter's berry is mistletoe,  
the candle white ball,  
just like a snowball,  
a couple of leaves tag along like friends.  
Evil roast beef plants have orange berries,  
just like mini oranges  
their shine might blind ladybird,  
they hang like baubles on a Christmas tree  
Spindle berry,  
lipstick pink,  
glimmering in sunshine  
on a winter's day.
